

NATIONAL ELECTRIC LIGHT ASSOCIATION BULLETIN

Volume IV
August to July
1910-1911

New York
1911

- . A
- Accounting committee:
 Organization, December, 1910, meeting. 187.
 Standard classification of accounts, Issue of. 2.
 Accounts, Standard classification of. 2, 187, 737, 740.
 Administration of Association affairs. 650.
 Aluminum and wood-refuse. 444.
 Amendments to the Constitution. 652, 744.
 Asking for information. 578.
 Association activities. 1.
- B
- Badges of the sections. 52.
 Brooklyn. 186.
 Eastern New York. 187.
 New York. 651.
 Philadelphia. 187, 266.
 Toronto. 651.
 Baltimore company section:
 January, 1911, meetings. 329.
 February meetings. 331, 520.
 March meetings. 520.
 Lecture course. 189.
 Baseball trophy. 658.
 Bassett, Edward M., Address on rapid transit. 184.
 Billings, Harriet, Portrait of, presented to the Association. 656.
 Blanks for lighting data. 322, 430.
 Flood, W. H., Jr., Warning as to gasoline. 3.
 Foster, Electric vs. gasoline vehicles in. 119.
 Boston company section:
 Annual meeting, October, 1910. 125.
 January, 1911, meeting. 330.
 April meeting. 591.
 June meeting. 670.
 Boston Edison Company publishes "Edison Life." 264.
 Boston Edison Laboratory, Work of. 591.
 Brooklyn company section:
 Annual convention. 744.
 Badge. 186.
 October, 1910, meeting. 62.
 December meeting. 184.
 January, 1911, meeting. 261.
 February meeting. 330.
 April meeting. 519.
 Brooklyn Edison Co., Profit-sharing and pension plan. 186.
 Buffalo company section:
 Annual meeting, December, 1910. 189.
 January, 1911, meeting. 260.
 Niagara Falls trip, July, 1910. 10.
 Bulletin of the Association:
 Appreciation of, by E. J. Houston. 183.
 Increasing usefulness. 7.
 Issuance of. 741.
- C
- Canadian Electrical Association:
 Affiliation with the N. E. L. A. 321, 324, 432.
 Annual convention, June, 1911. 665.
 Officers of. 743.
 Canadian electrical energy. Exportation from Windsor and Detroit. 741.
 Children's diet and electricity. Book by L. E. Hogan. 57.
 "Coal dust twins." 192.
 Coffin, C. A., elected honorary member of the Association. 654.
 Commercial section:
 Features of. 506.
 Formation of, October, 1910, meeting. 55.
 Officers of. 743.
 Sub-committees. 255.
- Commercial section cup won by A. S. Huey. 657.
 Committee requests for information. 578.
 Committees, New. 7, 50.
 Commonwealth Edison Company, Details of merit system. 3.
 Commonwealth Edison section:
 September, 1910, meeting. 60.
 Annual dinner, November, 1910. 122.
 December, 1910, meetings. 182, 263.
 Badge. 651.
 Growth. 59, 263.
 January, 1911, meeting. 263.
 February meeting. 331.
 March meeting. 437.
 April meeting. 518.
 June meeting. 670.
 Company sections:
 Activity among. 127.
 Aim of, to develop efficiency. 259.
 Convention discussion. 740.
 Development of company section idea. 437, 589.
 Forming and utilizing. 10.
 "Get into the game." 59.
 Growth habit. 516.
 Importance and value of the company section. By Samuel Insull. 666.
 Value of section membership. By W. W. Freeman. 12.
 (See also their special names.)
 Conduits, Underground, Development of. By E. C. Freeze. 259.
 Constitutional amendments. 652, 744.
 Contract and installation, Time between. 193.
 Contract, Written, Is it essential? 596.
 Convention, Thirty-fourth:
 Discussion on company sections. 746.
 Election of officers. 655.
 Entertainment. 509, 584.
 Hotel committee activities. 323, 434, 504.
 Magnitude and importance. 501.
 New York welcome. 589.
 Plans. 429, 577.
 Program of business. 582.
 Registration matters. 510.
 Review of. 649.
 Transportation committee work. 503.
 Convention Daily. 504.
 Cooking rates. 269.
 Co-operative attitude, The proper. 117.
 Corporation tax law, Federal, upheld. 433.
- D
- Davenport, Thomas, Memorial to. 11, 53.
 Denver company section, Annual meeting, November, 1910. 191.
 Denver and Doherty. 671.
 Deposits from customers. 270, 334.
 Dinner in St. Louis to Alton S. Miller, Farewell. 745.
 Doherty, H. L. Rates. 261.
 Doherty gold medal:
 Award of, to C. J. Russell. 656.
 Conditions of award of. 56, 127.
 Papers with committee. 266, 580.
 Dues, New scale of. 250, 744.
- E
- Eastern New York section:
 Badge. 187.
 February, 1911, meeting. 440.
 Organization, December, 1910, meeting. 191.
 "Edison Life." 264.
 Edison Medal award to F. J. Sprague. 522.
 Educating the central-station employee. By H. E. Grant. 121.
 Efficiency engineering. 594.

Efficiency and high cost of living. 259.
 Electrical apparatus committee, January, 1911, meeting. 255.
 Electrical committee of the National Fire Protection Association, March, 1911, meeting. 507.
 Electricity the "matchless" light. 322.
 Employees:
 Co-operative attitude, The proper. 117.
 Educating of employees. By H. E. Grant. 121.
 Efficiency and the high cost of living. 259.
 Merit system of Commonwealth Edison Co. 3.
 Profit-sharing plan of Brooklyn Edison Co. 186.
 Sale of appliances by other than regular salesmen. 533.
 Welfare work of N. E. L. A. 323, 502, 657.
 Executive committee:
 October, 1910, meeting. 50.
 January, 1911, meeting. 251.
 March meeting. 431.
 May meeting. 579.
 July meeting. 739.
 Resolutions on affiliation of Canadian Electrical Association. 432.
 Resolutions on International Electrical Congress at Turin. 432.
 Resolutions on licensing of engineers in New York State. 432.
 Resolutions as to water powers on public lands, 253; Comment, 249.

F

Finances of the Association. 51, 252, 431, 579, 739.
 Fires in Ohio and Minnesota. 322.
 First aid to injured. 63.
 Free lamp renewals, As to discontinuing. By V. R. Lansingh. 267.
 Freeman, W. W. Value of section membership. 12.

G

Gasoline in stores, Warning concerning, in Nebraska. 3.
 Gasoline vehicles in Boston. 119.
 Georgia state section. 49, 55, 522.
 Gilchrist, John F., Biographical sketch of. 655.

H

Haverhill, Mass., Defeat of municipal ownership. 187.
 Heating appliances, Household, Are they "connected load"? 443.

I

Illumination vs. light. By J. F. McGlensey. 260.
 Index to Proceedings, 1885-1909, Value of. 186.
 Insull, Samuel. Importance and value of the company section. 660.
 Insurance rates. 181.
 International Electrical Congress at Turin: Plans. 433.
 Resolutions of executive committee concerning. 432.
 Inventor's opportunity in the development of a house-cooling device. 524.

J

Joplin company section, Formation. 518.

K

Kilowatt year. 675.

L

Lamp renewals, Free, As to discontinuing. By V. R. Lansingh. 267.

Lansingh, V. R. Discontinuing of free renewals. 267.
 Licensing of engineers in New York State, Resolutions of executive committee. 432.
 Light vs. illumination. By J. F. McGlensey. 260.
 Lighting statistics, N. E. L. A. 322, 430.
 Lightning protection committee, December, 1910, meeting. 324.

M

Members:
 Change of address. 6.
 New. 8, 57, 120, 188, 256, 324, 435, 511, 581, 585, 658, 742.
 Number. 57, 188, 256, 431, 434, 510, 579, 581, 658, 740, 741.
 Membership campaign, Fine start in. 741.
 Membership committee:
 Appeal for help in 1911 campaign. 189.
 Change of name. 740.
 Membership in the Association; a word to non-members. 182.
 Merit system of the Commonwealth Edison Company. 3.
 Meter committee on lower-priced meters. 8.
 Meter readings on bills—shall we eliminate them? 674.

Meters:

Care of, in small stations. By A. M. Richardson. 9.
 Lower-priced. 8.
 Relation of accuracy to revenue. 330, 331.
 Miller, Alton S., Farewell dinner to, in St. Louis. 745.
 Milwaukee company section, Annual meeting. 671.
 Municipal ownership defeated at Haverhill, Mass. 187.

N

National Electrical Code. 254, 434, 507.
 National Fire Protection Association, Electrical committee. 507.
 Nebraska Association, Officers of. 748.
 New England Section:
 September, 1910, meeting. 53.
 Annual meeting, March, 1911. 332, 509.
 New Orleans, Consumers' Electric Company, Employees' Association. 10.
 New York company section:
 Badge. 651.
 Bulletin. 520.
 Formation proposed, November, 1910, meeting. 123.
 Constitution adopted and officers elected, January, 1911, meeting. 329.
 February, 1911, meeting. 439.
 April meeting. 520.
 May meeting. 590.
 June meeting. 669.
 Welcome to convention. 589.
 North Shore company section:
 September, 1910, meeting. 60.
 Annual meeting, November, 1910. 124.
 January, 1911, meeting. 439.
 February meeting. 441.
 March meeting. 519.
 Membership. 60.
 Northwest Electric Light and Power Association, Affiliation with N. E. L. A. 741.

O

Officers of the Association, Election of. 655.
 Overhead line construction committee:
 November, 1910, meetings. 119, 183.
 December meetings. 183, 254.
 January, 1911, meeting. 254.
 February meeting. 324.

P

- Pawtucket, R. I., Proposed underground wires. 6.
- Pennsylvania Electric Association, Annual meeting, September, 1910. 54.
- Philadelphia company section:
 October, 1910, meeting. 126.
 November meeting. 190.
 December meeting. 265.
 January, 1911, meeting. 264.
 February meeting. 438.
 March meeting. 517.
 April meeting. 521.
 Annual meeting, May, 1911. 668.
 Badge. 187, 266.
 Membership campaign. 61.
 Prizes for helpful ideas. 60, 265, 438, 522.
- Physiological effects of electricity. By Dr. E. A. Spitzka. 517.
- Pittsburgh company section:
 Formation. 332, 440.
 May, 1911, meeting. 670.
- Power transmission section, Conference on water powers in New York. 505.
- Prime motive powers committee, January, 1911, meeting. 255.
- Private power plant, Argument against the. 185.
- Proceedings of 1910, Delivery of. 54, 119.
- Profit-sharing plan of Brooklyn Edison Co. 186.
- Public policy committee:
 November, 1910, meeting. 118.
 Report sent out. 581.
 Welfare work. 323, 502, 657, 738.
- Public regulation. By E. M. Bassett. 184.
- Publicity, Neighborhood. 750.

Q

- Question Box:
 Accounting, a neglected theme. 524.
 Appreciation of. 441, 581.
 Classification. 442.
 Editor E. A. Edkins, Chicago. 753.
 Function and significance of. By H. L. Doherty. 128.
 Future of. 673.
 Give and take. 333.
 Help wanted. 13, 64.
 Increase in size. 186, 328.
 Revised edition. 435, 505.
 Standing of. 750.
 Taking notice. 328.
 Warm welcome for commercial questions. 15.

R

- Rate research committee, September, 1910, meeting. 8.
- Rates:
 Cooking. 269.
 Discussion. By H. L. Doherty. 261.
 Off-peak rates. 444.

S

- St. Louis company section:
 Annual meeting, June, 1911. 745.
 Miller, A. S., Farewell dinner to. 745.
 Moonlight outing, July, 1910. 11.
 Officers. 745.
 September, 1910, meeting. 63.
 October meeting. 125.
 November meeting. 259.
 December meeting. 260.
 April, 1911, meeting. 590.
- Sale of appliances by employees other than regular salesmen. 333.
- Sales methods, New. 335, 525.
- Salesmen's record card. 752, 784.
- Salt Lake City company section:
 June, 1910, meeting. 11.
 October meeting. 126.

- Salt Lake City company section: (Continued)
 November meeting. 190.
 December meeting. 264.
 January, 1911, meeting. 329.
 Annual banquet, February, 1911, meeting. 441.
 March meeting. 520.
 April meeting. 591.
 May meeting. 671.
- San Antonio company section, Activity in. 590.
- Scranton company section, Formation. 332, 522, 591.
- Sections. (See Company sections; also names of sections.)
- Spitzka, Dr. E. A. Physiological effects of electricity. 517.
- Sprague, Frank J., Edison Medal awarded to. 522.
- Standard classification of accounts, Issue of. 2, 187, 737, 740.
- Standardizing and testing in Boston. 591.
- State sections, Formation of. 49.
- Statistical department of the Association, Proposed creation of. 3, 52, 580, 740.
- Street-lighting expenditures, Comparison of. 443.

T

- Tax law, Federal, upheld. 433.
- Tesla, Nikola, before New York companies sections. 590.
- Tornadoes, cyclones, etc. By G. S. Bliss. 521.
- Toronto company section:
 Badge. 651.
 Bulletin, First issue. 121.
 October, 1910, meetings. 68, 123.
 December meeting. 262.
 January, 1911, meeting. 328.
 February meeting. 441.
- Tungsten policy in small cities. 195.

U

- Underground construction, Development of. By E. C. Freeze. 259.
- Underground construction committee, January, 1911, meeting. 255.
- Underground wires proposed for Pawtucket, R. I. 6.
- Underwriters' inspections. 595.
- Underwriters' National Electrical Association, Biennial meeting of Electrical committee, March, 1911. 254, 434, 507.
- Uniform accounting. (See Accounting committee.)

V

- Vancouver company section:
 Address by H. E. Grant on educating the employee. 121.
 October, 1910, meeting. 125.
 December meeting. 192.
 January, 1911, meeting. 330.
 February meeting. 519.
- Vanderpoel, W. K., on the proper co-operative attitude of employees. 117.
- Vermont Electrical Association, Annual meeting, September, 1910. 53.

W

- Water powers on public lands:
 Conference in New York under auspices of Power transmission section. 505.
- Resolutions of the Association concerning. 253; Comment, 249.
- Welfare work of the Public policy committee. 323, 502, 657, 738.
- West Penn Electric Co., Annual dinner. 262.
- Wiring handbook. 748.

INDEX TO QUESTION BOX

A

Accounting, best method to check wiring material sold ... Q. 23-32, pp. 556, 629

Accounting, billing and bookkeeping separated Q. 25-28, p. 482

Accounting, bills uncollectable, per cent of Q. 23-23, p. 402

Accounting, division made of turbo-electric generator in Q. 23-44, p. 782

Accounting, inventory, perpetual, beneficial results of Q. 23-37, pp. 718, 780

Accounting, meter constants, method of checking in consumers' ledgers.
Q. 23-36, p. 630

Accounting, method employed on house wiring agreements ... Q. 23-35, p. 630

Accounting, methods for handling scrap and spliced wire.
Q. 23-38, pp. 713, 780

Accounting, methods used in billing college towns Q. 24-65, p. 785

Accounting, monthly, number assigned to one bookkeeper Q. 23-27, p. 481

Accounting, proper amount of original cost charged off for depreciation.
Q. 24-28, p. 107

Accounting, time allowed for posting after payment of customer's bill.
Q. 23-24, p. 403

Accounting, use of card and loose-leaf ledger in keeping customers' accounts.
Q. 23-22, pp. 401, 479

Accounting charges for line extension, machinery installation, etc.
Q. 23-15, p. 85

Addressograph, experience with types of.
Q. 24-68, p. 784

Advertising, circular letters to prospective customers Q. 21-19, pp. 383, 472

Advertising, list of customers to appliance manufacturers for.
Q. 21-31, pp. 624, 715

Advertising, most effective.
Q. 21-14, pp. 97, 155, 218, 381, 471, 551, 617, 773.

Advertising on program of school and church publications .. Q. 21-32, p. 773

Advertising, use of floats for.
Q. 21-9, p. 97

Air, conductivity of, varying with pressure.
Q. 0-27, pp. 136, 201

Alternating current apparatus at 133 cycles, discontinued Q. 10-28, p. 73

Alternator, computing the efficiency of.
Q. 10-39, p. 856

Apparatus, second-hand and obsolete new, how to dispose of Q. 0-19, p. 67

Appliances, electric, average revenue on.
Q. 23-25, pp. 480, 555

Appliances, electric, for felling trees.
Q. 0-28, p. 202

Appliances, electric, heating and cooking, policy of selling at cost.
Q. 24-30, pp. 168, 228

Arc, under oil, conditions governing opening of Q. 11-14, p. 139

Arc lamp service, business methods in negotiating for village business.
Q. 21-10, p. 32

Arc lamps, comparison of Pemco tungsten and enclosed Q. 16-40, p. 541

Arc lamps, flaming, vs. gas arcs.
Q. 16-39, p. 461

Arc lamps, 25 cycle, experience with.
Q. 16-22, p. 27

Arc lamps, use of metal chains to hang.
Q. 16-28, pp. 28, 149

Arc lamps vs. tungsten lamps under 250 watts for street lighting.
Q. 28-3, p. 766

Armature winding, to change 110-v. shunt wound $\frac{1}{4}$ -k.w. d. c. dynamo to give same output at 8 volts excited from 110-v. source Q. 10-43, p. 450

Armatures, meter, rewinding.
Q. 20-76, pp. 550, 618, 699

Automatic alarm system for small central stations Q. 0-26, p. 200

B

Batteries, see storage batteries and name of particular battery, & e., Edison, Gould, etc.

Benefit societies, member companies having.
Q. 24-62, pp. 723, 783

Boller room practise, question of steam pressure Q. 5-11, pp. 527, 600

Boller scale, solution for, in plant running non-condensing and using very hard water Q. 5-8, pp. 347, 446, 600

Boilers, application of thermal storage to.
Q. 5-6, p. 136

Boilers, Babcock and Wilcox, cost of cleaning Q. 5-10, pp. 446, 528

Boilers, firing by hand and automatic.
Q. 5-7, pp. 344, 446

Boilers of Interborough Rapid Transit Co., N. Y., use of stoker in rear as well as in front Q. 5-9, p. 347

Breweries, electric power for, members securing contracts for.
Q. 19-50, pp. 547, 696

Brick wall, discoloration of.
Q. 1-9, pp. 340, 493

Bridges, principle and use of, between pole-faces of synchronous motors.
Q. 10-34, p. 75

Business, new, effective line of attack to show true cost of lighting.
Q. 21-10, p. 32

Business, new, reasonable amount, based upon gross earnings, to be spent on soliciting and developing.
Q. 24-42, p. 413

Business arguments to use for motor drive vs. gas engine plant .. Q. 21-12, p. 33

By-products of central stations, refrigeration Q. 24-41, pp. 311, 409

By-products of central stations, steam heating ... Q. 0-16, p. 15; Q. 9-1, pp. 17, 72

C

Cable, faulty, is it good operation to put on interrupted current after insulation broken Q. 13-22, p. 538

Cable, method to determine whether a single or multiple conductor lead-covered cable is carrying current without removing lead Q. 13-9, p. 148

Cable pitch, kind used by various companies.
Q. 13-11, p. 253

Cables, danger of damaging by repeated tests on no load Q. 13-21, p. 537

Cables, isolating breaks in .. Q. 1-16, p. 141

Cables, lead-covered, high-tension, bending of Q. 13-24, pp. 691, 763

Cables, lead-covered, steel armored, success of in underground construction.
Q. 13-14, pp. 456, 608

Cables, over 1,000,000 cir. mils cross-section, companies using.
Q. 13-12, pp. 238, 369

Cables, predetermining break-downs of high tension Q. 11-16, p. 141

Cables, 13,000-v., policy of keeping reserve cables alive or dead.
Q. 13-20, pp. 536, 609

Cables, underground, locating faults on.
Q. 13-7, p. 81

- Electric shock, resuscitation from.
Q. 0-39, p. 727
- Elevators, requirements in connection with installation of, operated by a. c. motors Q. 19-52, pp. 614, 697
- Elevators, success of single-phase motors on Q. 19-43, p. 374
- Eminent domain, states giving right of, to central station companies for pole lines Q. 25-10, pp. 489, 640
- Employees, physical examinations for.
Q. 24-58, pp. 635, 722
- Employees, regular meetings of.
Q. 24-61, p. 783
- Employees, suggestions from, encouraging.
Q. 24-44, pp. 416, 559
- Employees record, card, member companies keeping Q. 24-56, pp. 634, 722
- Employees record, photographic, member companies keeping.
Q. 24-57, pp. 635, 783
- Employment bureau, companies maintaining Q. 24-55, p. 634
- Engine, 4-valve, vs. single-valve engine of same type, advantages of.
Q. 6-1, pp. 275, 348; Q. 6-2, p. 276
- Engines, economy in fuel in various types.
Q. 6-4, pp. 350, 447
- Engines, oil, data on installation and cost of operation as well as reliability of performance Q. 8-4, pp. 350, 447
- Equalizer bus and leads, minimum size, for 3 or more d. c. compound generators connected in parallel Q. 1-13, p. 22
- Exciter, shunt, reversing in polarity.
Q. 10-20, p. 18
- Extensions for residence consumers, policy regarding Q. 24-19, p. 35
- F**
- Faults, locating, kind of instrument for on 11,000-v. line Q. 11-11, pp. 76, 189
- Faults, location of, in power cables, experiences in Q. 12-54, p. 762
- Faults, location of, on underground cables.
Q. 13-7, p. 81
- Faults, location of, poor joint on Edison feeders Q. 13-10, p. 282
- Filler, cable, used by various companies.
Q. 13-10, p. 282
- Fire alarm systems operated from 110-v. d. c. mains, cost and details.
Q. 21-15, pp. 98, 157
- Fixed charges, ethics of change to selling at cost Q. 24-29, p. 160
- Flickering of lights, remedy for, caused by moving-picture show connection.
Q. 15-60, p. 765
- Foot-candles, designation for intensity of illumination Q. 17-20, p. 29
- Fuel, calculation of B.t.u. per lb. of coal.
Q. 23-31, pp. 556, 623
- Fuel, economy in kind of coal used.
Q. 4-2, p. 344
- Fuel, economy in use of 4-valve over single-valve engine Q. 6-2, p. 276
- Fuel, effects of moisture in, on thermal efficiency of boiler Q. 4-1, p. 17

 Power plant, efficiency of .. Q. 23-30, p. 555
 Pressure, conductivity of air varying with.
 Q. 0-27, pp. 136, 201

Protective devices, effect of use of lightning arresters Q. 12-38, pp. 282, 366
 Protective devices, lightning arresters.
 Q. 12-36, pp. 205, 281, 365
 Protective devices, lightning arresters, inspection of Q. 12-53, p. 760
 Protective devices, method of lightning protection used on 11,000-v. lines.
 Q. 12-51, p. 689
 Public utilities, court rulings on refusal to render service on account of past due indebtedness Q. 25-6, p. 39
 Public utilities, organization where company operates two or more utilities in same city Q. 24-40, p. 234

R

Rate making in towns of 5000.
 Q. 22-42, p. 395
 Rates, advisability of changing from long used kw-hr. basis to "readiness to serve" Q. 22-24, p. 163
 Rates, apportionment of the demand charges of a station.
 Q. 22-36, pp. 224, 391
 Rates, arc, flaming, per pair.
 Q. 22-46, pp. 477, 553
 Rates, best schedule for abnormal incandescent service Q. 22-39, p. 227
 Rates, change from flat to combination of service and kw-hr. charge.
 Q. 22-34, p. 222
 Rates, electric ovens. Q. 22-41, pp. 301, 393
 Rates, electric vehicle, charged by garage owners Q. 22-55, p. 779
 Rates, experience in trying to operate a day load without charging flat-rate light customers to meters.
 Q. 24-39, p. 311
 Rates, experience of companies with flat-rate lighting contracts for long-hour burners Q. 22-35, p. 224
 Rates, flat, for window lighting, success of.
 Q. 22-33, pp. 162, 221
 Rates, is special rate given for primary motors 2200-v., is contract modified for secondary motors, 220-volt?
 Q. 22-40, pp. 393, 475
 Rates, measured vs. flat, net profits.
 Q. 22-30, pp. 35, 99
 Rates, minimum, data relative to the cost on which companies base their minimum charges.
 Q. 23-21, pp. 304, 399, 479
 Rates, minimum monthly, states legal in.
 Q. 25-7, pp. 41, 107
 Rates, off-peak, companies giving and how controlled ... Q. 22-37, pp. 224, 289, 392, 474, 553, 625, 778.
 Rates, policy followed in supplying current for lighting to customers using large power current Q. 22-32, p. 159
 Rates, special, for electric signs and outlining business Q. 21-17, p. 158
 Rates, street lighting, suburban, fair yearly charge per 16 c.p. lamps.
 Q. 22-31, pp. 220, 298
 Rates, tungsten lamps on c.p. basis.
 Q. 22-48, p. 478
 Rates, tungsten street lamps.
 Q. 22-52, p. 717
 Rates, welding machines, charges for.
 Q. 22-43, p. 475
 "Readiness to serve," advisability of changing charge on kw-hr. basis to.
 Q. 22-24, p. 163
 Rebate to customer if meter tests fast.
 Q. 24-52, pp. 562, 633
 Rectifiers, mercury arc, on tungsten street lighting systems Q. 15-50, p. 287
 Rectifier, mercury arc, to change 25-cycle current to d. c. for projection arc lamp Q. 16-26, p. 27
 Reflection, coefficients, with one type of reflector Q. 17-32, pp. 611, 765

Refrigeration, advisability of adding ice and cold storage plant to water and light plant Q. 24-48, p. 561

Refrigeration, experience with use of plants in apartment houses, groceries, saloons Q. 19-47, pp. 464, 546

Refrigeration, results of ice making as a by-product by electric light and power companies Q. 24-41, p. 311, 409

Regulation, use of buck and boost feeder. Q. 10-40, pp. 357, 448

Regulation of generators. Q. 10-41, p. 357

Relief valve, experience with operation of automatic relief valves in water power plants Q. 2-4, p. 568

Renewals, see lamp renewals.

Resuscitation from electric shock, experience with methods of. Q. 0-39, p. 727

Rock-crushing plants, electric power for. Q. 19-49, pp. 546, 696

Rotary condensers, installation on feeders to correct power-factor. Q. 3-6, pp. 274, 342

Rotary converter, reasons for sudden dropping of load Q. 10-32, p. 21

Rotary converter connected to supply, out of phase Q. 10-47, p. 681

Rotary converters, 6-phase, diagram of coil connections Q. 15-40, p. 25

S

Sales department, per annum cost for business promotion Q. 24-53, p. 634

Sales force, increase by other than regular. Q. 21-24, pp. 386, 472

Salesmen, experience as regards paying commissions for sales to others than representatives Q. 21-23, p. 472

Saw-dust, making of alcohol from. Q. 21-30, p. 772

Service, changing from a. c. to d. c. or vice versa, policy of company in regard to cost Q. 24-68, p. 789

Sewing machine motors, average revenue on Q. 23-25, pp. 480, 555

Scientific management, applied to electric light and power companies. Q. 24-46, pp. 485, 560, 633

Shafting, allgning for customers. Q. 19-44, pp. 375, 462

Shocks, electric, effect on horses. Q. 0-29, p. 203

Shocks, electric, resuscitation methods. Q. 0-39, p. 727

Sign, electric, suggestions for central station Q. 17-24, p. 30

Signs, electric, companies pursuing active campaigns for special rates for. Q. 21-17, p. 158

Signs, electric, operated with five point flasher Q. 17-25, p. 88

Signs, electric, solicitors working exclusively on Q. 21-27, p. 617

Signs, electric, wired in series multiple using 10-v. tungsten lamps. Q. 17-25, p. 88

Signs, free, reasons for discontinuing. Q. 24-45, pp. 416, 484

Signs, free tungsten lamps and transformers on flat-rate sign contracts. Q. 22-49, p. 479

Signs, use of low voltage tungsten lamps for Q. 16-31, pp. 151, 211, 289

Solicitors, for electric sign business exclusively Q. 21-27, p. 617

Solicitors, number for city of 350,000 with keen gas competition. Q. 21-20, pp. 297, 384

Solicitors, rank and basis of paying. Q. 24-24, p. 37

Starting devices, maximum of current permitted Q. 19-38, pp. 94, 215

Steam heat as by-product, list of member companies selling. Q. 0-16, p. 15; Q. 9-1, pp. 17, 72

Street lamp, c.p. of a 55-v., 32-c.p. lamp, operated at 62 v. Q. 16-27, pp. 28, 85

Street lamps, carbon, c.p. of 55-v., 32-c.p. operated at 62 v. Q. 16-27, pp. 28, 85

Street lighting, comparison of Pemco tungsten arc lamp with equal size enclosed arc Q. 16-40, p. 541

Street lighting, concerning specifications for Q. 22-38, p. 225

Street lighting, gas, data or tests on. Q. 16-38, p. 541

Street lighting, incandescent, reliability of underground series, using ornamental iron posts Q. 17-19, p. 372

Street lighting, series Mazda for. Q. 16-33, pp. 152, 212

Street lighting, suburban, fair yearly charge for, per 16-c.p. lamp, service multiple 118-volt. Q. 22-31, pp. 220, 298

Street lighting, temporary, best method for underground system in which no poles are used Q. 13-23, pp. 538, 609

Street lighting, tungsten experience with system composed of combination lighting and tramway poles. Q. 28-1, p. 545

Street lighting, tungsten, prevailing rates in small cities Q. 22-52, p. 717

Street lighting, use of tungsten vs. arc lamps for Q. 28-3, p. 766

Street lighting by ornamental tungsten lamp posts Q. 0-24, pp. 134, 197

Street lighting service, costs per sq. mi. Q. 22-47, pp. 477, 553, 626

Street lighting system, ornamental charges and costs of. Q. 0-30, pp. 204, 271

Street lighting systems, tungsten, use of mercury arc rectifiers on. Q. 15-50, p. 287

Street lighting with series tungsten, prices for lamps and lengths of contracts. Q. 22-16, p. 34

Stoking, advantages and disadvantages of hand and automatic. Q. 5-7, pp. 344, 446

Storage battery, cost per kw. at one hour rating Q. 14-3, p. 81

Storage batteries, Edison, experience with, for vehicle work. Q. 14-7, pp. 539, 692

Storage batteries, Gelzler Bros. formula for non-sulphating. Q. 13-3, p. 23

Storage batteries, Gould, use of by member companies. Q. 14-8, pp. 692, 763

Storage batteries, resistance value of oxide battery from beginning to end of charge Q. 14-5, pp. 284, 369

Storage batteries, use of in discharging at peak load or in case of trouble. Q. 14-6, p. 284

Suggestions from employes, promotion of. Q. 24-44, pp. 415, 559

Switches, air break, effect of operation on transmission apparatus. Q. 11-19, p. 361

Switches, oil, practice in inspecting and changing of oil. Q. 11-20, pp. 450, 529

Synchronous motor, 200 kw., regulation of field current so that power-factor remains at unity Q. 10-38, p. 276

Synchronous motor, practicable of operating a 50-k.v.-ampere, 3-phase, 60-cycle revolving field alternating as. Q. 10-36, p. 355

Synchronous motors, principle and use of bridges between pole-faces of. Q. 10-34, p. 75

Synroscope, sketch of connection on 2-phase, 4-wire board with five machines. Q. 11-17, p. 360

T

Telephone lines on 3300-v. or over, attached to poles or towers, success of. Q. 12-37, p. 206

- Tennis courts, illumination of.
Q. 17-26, p. 89
- Testing, experience with polyphase rotating testing standard.
Q. 20-72, pp. 379, 468, 549
- Testing, meter, cost of two methods.
Q. 20-77, pp. 470, 551, 616, 699
- Testing meter, load for. Q. 20-83, p. 767
- Testing for open circuit on arc circuit where tungsten lamps are also used.
Q. 12-39, pp. 282, 366
- Testing sets, portable, experiences with.
Q. 12-54, p. 762
- Theft of current, method of securing information on. Q. 24-27, pp. 106, 165
- Theft of current, procedure for punishment of. Q. 20-75, pp. 469, 549
- Thermal efficiency of boilers, effects of moisture in fuel on. Q. 4-1, p. 17
- Thermal storage, application of to boilers.
Q. 5-6, p. 136
- Toasters, electric, average revenue on.
Q. 23-25, pp. 480, 555
- Transformer, diagram of connection for using two 2200-v. transformers on a 3-phase, 2200 to 3800-v. system.
Q. 15-48, p. 83
- Transformer, 60-cycle, 2400-v., from 5 to 15 k.w. capacity, power-factor of magnetizing current. Q. 15-47, p. 209
- Transformer, subway installation, artificial ventilation for man-hole.
Q. 13-17, pp. 535, 600
- Transformer oil, preparatory test on.
Q. 15-32, p. 24
- Transformer oil, purifying process for.
Q. 15-35, p. 24
- Transformer oil, removing moisture from.
Q. 15-37, p. 25
- Transformer oil, test for presence of water in. Q. 15-38, p. 83
- Transformer vaults, separate from regular man-hole. Q. 13-18, pp. 535, 609
- Transformers, air-cooled, method of removing dust from. Q. 15-52, pp. 458, 540
- Transformers, charge to customers in 3-phase motor installations of over 50 h.p. Q. 22-26, p. 99
- Transformers, current transformer connections on 3-phase circuits.
Q. 15-46, pp. 285, 457
- Transformers, electrical tests on, in service. Q. 15-30, p. 82
See also Q. 15-8, December, 1909, page 264.
- Transformers, excessive heat of, alarm device for. Q. 15-51, pp. 210, 288
- Transformers, experience with standard types. Q. 15-53, p. 458
- Transformers, floating, on tungsten street lighting systems. Q. 15-50, p. 287
- Transformers, fusing secondaries of.
Q. 15-59, p. 764
- Transformers, inspection in service method of. Q. 15-29, p. 82
See also Q. 15-18, December, 1909, February, 1910, page 264.
- Transformers, low voltage, for residences.
Q. 24-20, pp. 36, 102
- Transformers, manhole, operation of where flooded. Q. 13-13, pp. 284, 369
- Transformers, method of checking ratio of current transformer on high voltage.
Q. 15-56, pp. 610, 698
- Transformers, parallel bank of 3, trouble by one bank taking more than correct proportion of load. Q. 15-55, p. 609
- Transformers, potential, kind of primary fuses. Q. 15-54, pp. 460, 540
- Transformers, period of inspection in service. Q. 15-28, p. 82
See also Q. 15-8, December, 1909, and February, 1910, page 264.
- Transformers, 50 kw., installation on single pole. Q. 12-44, pp. 531, 608
- Transformers, small, placed on 10,000 to 15,000-v. lines to serve villages and farms. Q. 12-35, pp. 147, 205
- Transformers, subway capacity feasible in single man-hole. Q. 13-16, pp. 534, 608
- Transformers, 3-phase, experience with.
Q. 15-58, pp. 695, 764
- Transformers, two banks, cause and remedy of dips in lighting system.
Q. 15-57, pp. 694, 764
- Transformers, two 3-phase, delta connected on balanced load: if one leg of delta open-circuited, effect on distribution of load. Q. 15-44, p. 25
- Transformers two 3-phase delta and star connected operating in parallel: effect of inter-changing two of the primary phase leads and the corresponding secondary phase. Q. 15-45, p. 83
- Transmission, 11,000-v. lines, method of lightning protection adopted.
Q. 12-51, p. 689
- Transmission, high tension, predetermining break-downs of. Q. 11-16, p. 141
- Transmission, method of making high potential line tests on 11,000-v. line.
Q. 12-48, pp. 606, 688
- Trees, felling by electricity. Q. 0-28, p. 202
- Trouble, locating, kind of, instrument recommended for 11,000-v. line.
Q. 11-11, pp. 76, 139
- Trucks, electric, use of one or two motors for. Q. 29-1, p. 548
- Tungsten, ornamental lamp posts, installations of. Q. 0-24, pp. 134, 187
- Tungsten lamps, low voltage, use of for signs. Q. 16-31, pp. 151, 211, 289
- Tungsten lamps, position of in lighting office. Q. 17-21, p. 29
- Tungsten lamps, prices for different sizes for street lighting. Q. 22-16, p. 84
- Tungsten lamp renewals, best policy for.
Q. 24-36, pp. 232, 309
- Tungsten lamps, tests of various makes.
Q. 16-17, p. 85
- Tungsten lamps, 12-v., use of in signs.
Q. 17-25, p. 88
- Tungsten lamps, 250-watt, success of.
Q. 16-35, pp. 291, 371
- Tungsten lamps, under 250-watts vs. arc lamps for street lighting.
Q. 28-3, p. 766
- Turbines, Curtis, conditions which raise step pressure above normal value.
Q. 7-6, p. 187
- Turbines, Curtis, experience with nozzles and plates of. Q. 7-8, p. 678
- Turbines, low pressure, data on.
Q. 7-7, p. 678
- Turbines, Parson's type, experience with blades and steel copper plated.
Q. 7-8, p. 678
- Turbo-generators operated as synchronous motors, to improve power-factor of other generators. Q. 10-29, p. 20
- Twenty-five cycle current for arc lamps.
Q. 16-22, p. 27; Tungsten, Q. 16-25, p. 27; Projection arc, Q. 16-26, p. 27.

U

- Underground construction, comparison of fibre and iron pipe conduit in.
Q. 13-26, p. 763
- Underground service for block of houses.
Q. 12-30, pp. 77, 141, 363
- Underground system, best method for temporary street illuminations from.
Q. 13-23, pp. 538, 609
- Underground systems, use of lead-covered, steel-armored cable for series street lighting systems.
Q. 13-14, pp. 456, 608

V

Vacations given, in member companies.
Q. 24-49, pp. 486, 562

Vacuum cleaners, rental charge for.
Q. 21-29, p. 623

Vehicles, electric, average kw. consumption
of (a) three-ton truck and (b) ordi-
nary runaboutQ. 14-4, p. 81

Vehicles, electric, rates charged by garage
owners forQ. 22-55, p. 779

Vehicles, electric, standardization of charg-
ing plugs forQ. 0-34, p. 587

Vehicles, electric and horse-drawn, relative
cost of operatingQ. 14-4, p. 81

Vehicles, electric, see also trucks, electric.

Vibration of incandescent lamp filament,
when in proximity to high tension
conductorQ. 0-17, p. 15

Voltage range of interpole converter com-
pared with converter connected with
an induction regulator .Q. 10-25, p. 73

W

Washing machines, electric, success with.
Q. 18-5, p. 90

Water works, electric power for.
Q. 21-26, pp. 390, 473, 551

Welfare, employes, member companies hav-
ing mutual aid or benefit societies.
Q. 24-62, pp. 723, 783

Welfare, employes, rules concerning mem-
bership and dues in companies whose
employes have benefit association.
Q. 0-33, p. 493

Westinghouse induction meters, how to elim-
inate rust on iron clock plate of.
Q. 20-78, p. 616

Window displays, most effective.
Q. 21-16, pp. 158, 219, 382, 471

Wire, scrap and spliced, how handled.
Q. 23-38, pp. 718, 780

Wireless telegraph, interference with city
serviceQ. 12-45, pp. 531, 604

Wireless telegraph stations, affecting light-
ing linesQ. 12-46, pp. 605, 686

Wires, 11,000-v. over-head on business and
residential streetsQ. 12-29, p. 141

Wiring, do companies fill in gaps where
house wiring terminations do not meet
service entryQ. 24-66, p. 785

Wiring, 4-wire 220-v. service for 220-v.
motor with neutral connected to motor
instead of to single-phase meter.
Q. 10-21, p. 19

Wiring, house, method of keeping books on
agreementsQ. 23-35, p. 630

Wiring, short circuit in 3-wire private
plantQ. 10-37, pp. 355, 448

Wood working, elec. power for.
Q. 19-48, p. 465

Wood-strain insulators, use of on dead-end
2200-v. linesQ. 12-27, p. 77

Wright, maximum demand meters on 3-
phase motor installations, experience
withQ. 20-75a, pp. 550, 615
